

## SPEAKER BIO

# Christopher Sorensen

Christopher Sorensen is CEO of GreenLab. He has held many entrepreneurial positions – among other things, he has been Head of Innovation at B&O in Denmark.

He earned his MBA in Strategic Innovation with IMD and in the last 15 years, his focus has been on creating positive changes in society by integrating technology and business innovation in large scale. He did so as Global Head of Strategic Partnerships and Corporate Development in Masdar City's smart city and global cleantech cluster.

Today, he uses his vast experience and skillset in GreenLab – a green industrial park, national research facility, and technology catalyst. Here, the future solutions for the green transition are developed – one example of this is that GreenLab is a platform for one of the world's first and largest production facilities for Power-to-X.
