An aerial photograph of a wind farm and an industrial facility, possibly a bio-refinery. The scene is dominated by green fields and a clear sky. In the foreground, a large white line graphic, resembling a stylized mountain or a wave, is superimposed over the image. The line starts on the left, rises to a peak, dips, rises again to a higher peak, and then descends towards the right. The text is overlaid on this graphic.

DANISH RENEWABLE ENERGY – HOW IS IT GOING?

Greenlab Skive, November 9th 2023

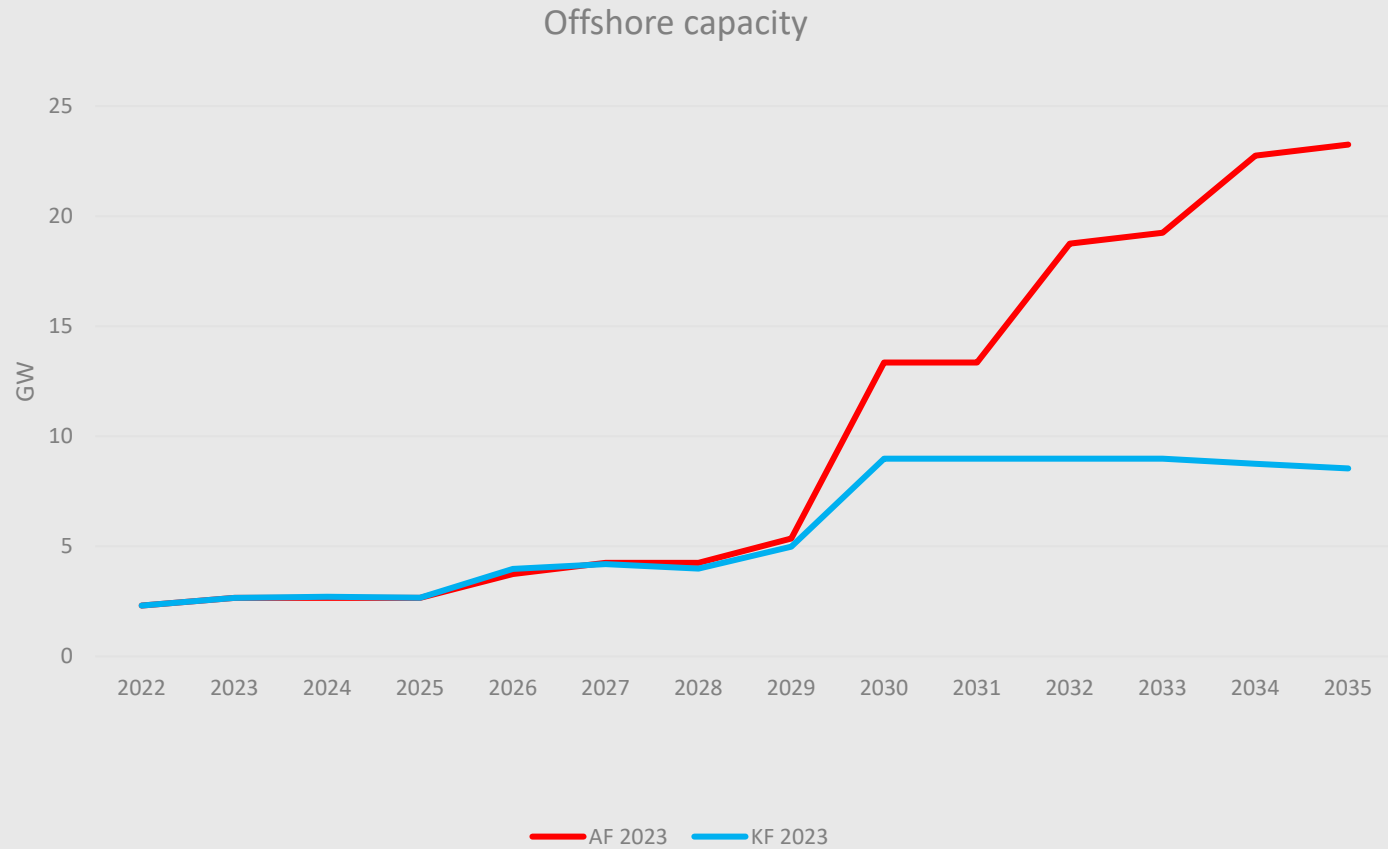

PV AND ONSHORE WIND HAS STALLED

Main causes

- NIMBY
- Everybody has been waiting for government initiatives
- Increasing compensation costs
- Increasing costs for net connections
- The price "cannibalisation" effect

OFFSHORE WIND IS ALSO FACING CHALLENGES

PTX IS SLOWLY MOVING FORWARD
